When Is My Payment Due?

*****For all patients, payment is due in full on your date of service. We require a 25% deposit received two weeks prior to your child's DEEP Assessment to reserve your appointment time.*****

Insurance: Including International and US Patients w/o Insurance

Bright Minds Institute will bill your family's health insurance company for the DEEP / BEAM Assessment fee. We will not bill your insurance for follow-up consultations but will provide you with invoice statements you may use to obtain reimbursement. If your insurance reimburses us for *more than* the difference between the full DEEP fee and your copay, we will send a check in the amount of the *difference* to you, not to exceed your copay. The amount we will bill your insurance is \$10,164.00. You are not responsible for any portion of this amount which your insurance company does not cover. You are only responsible for your **up front, out of pocket** co-payment of \$3,995 if we have the option to bill your insurance.

For **international** patients and US patients **without** US health insurance, the out of pocket cost is: \$3,995.00 plus \$2,320.00 to defray the cost of what your insurance would have paid us, if you had billable health insurance. The second amount is the low average reimbursement amount we generally receive from health insurance companies. Compared to our full DEEP Assessment fee this represents a **38% discount** for international travelers.

For all other services, we will provide you with invoice statements electronically or by mail. With these in hand you may bill your insurance company for out-of-network reimbursements.

Discounts

Save money with our "**Refer a Friend**" credit! You and your friend will **each** receive a **\$300 off coupon** applicable to your next DEEP Assessments. For the referring party, your coupon credit will be available upon the completion of your referrals' DEEP Assessments. Limit 10 referrals per family.

We offer **additional discounts** for having multiple children tested at the same time, military families, and international travelers. Discounts do not stack aside from any referral bonuses; we apply the greatest possible discount in your situation. Please contact our office for details.

Add 14%** to any fees paid for with a CareCredit payment plan. (Fee included in monthly payment shown on page one.) *These rates do not apply to international patients, or US patients without billable health insurance. If you are in either category please see US Insurance Billing section above. ***One yearly in-person follow-up visit is highly recommended and three (every four months) phone or in-person consultations every year if you or a child are continuing on our treatment plan. In-person consultations strongly preferred. Phone/Skype option**

offered as a doctor's courtesy to save out-of-area parents the time, hassle, and costs of traveling to our office from out of state or overseas, charged at same rate. ****BMI highly recommends annual follow-up DEEP Assessments to monitor your child's progress properly.

Financial Assistance: 0% Interest for 18 Months

Bright Minds Institute does not offer financial plans but we do accept **CareCredit**. For US patients only, this personal line of credit spreads out your payments over a more manageable 18 months, interest-free (0%).

“CareCredit is a personal line of credit for healthcare treatments and procedures for your entire family, including your pets. It is a credit card but it has two advantages. It can only be used for healthcare services and you can get **No Interest if paid in full within the promotional period** on purchases made with your CareCredit credit card. Interest will be charged to your account from the purchase date if the promotional purchase is not paid in full within the promotional period or if you make a late payment. Minimum Monthly Payments Required and you may pay off purchases before end of the promo period.”

Please note that we will add a **14% surcharge** to all procedures you pay for using CareCredit. We will verify your pre-approval for CareCredit before you decide to pursue treatment.

There is a one page application online offering immediate approval that you can pursue at your leisure. There are no up-front costs, prepayment penalties or annual fees. Visit www.carecredit.com or call 1-800-677-0718.

Other discounts:

We highly recommend that you set aside pre-tax income into a Flexible Spending Account (FSA) / Health Savings Account (HSA) through your employer, if either is available. This allows you to spend money on healthcare services which you otherwise would have given to our government in income taxes.
